

Price List

Our minimum printing order is one full sheet.

Sheet Size: 35"x47"

Price per sheet:

\$225 if you are printing only one sheet.

\$175 if you are printing 2 to 9 sheets.

\$125 if you are printing 10 sheets or more.

If you are interested in printing a much larger number of sheets, we will be happy to negotiate our price. The price will all depend on the volume of each order.

You may layout the sheet to put any combination you desire on the sheet as long as it fits geometrically. Listed below are several common examples.

9 – 11"x14" fit on a sheet

4 – 16"x20" fit on a sheet

2 – 20"x24" fit on a sheet

2 – 22"x30" fit on a sheet

Anything larger than 23"x34" will be one up only.

You may also mix this so as to get 2 – 16"x20" and 1 – 20"x24" on a sheet, or other combinations.

Color and B/W may be printed together if the B/W is neutral based. Our warm B/W needs different ink than what we use for color so they can not be printed together.

Price of other services

Digital Capture: \$100 per image.

Drum Scan:

\$80 per image for Iris printing.

\$25 per image for consumer printers.

Proof: \$35 per proof.
